900 mm

The 90×120 tile collection introduces a refined balance of scale, elegance, and modern functionality. With its large rectangular format, it creates a spacious and visually continuous surface that enhances the architectural character of any interior.

Fewer grout lines provide a cleaner and more sophisticated appearance, allowing the beauty of the tile's texture and design to stand out. Manufactured with advanced technology and high quality materials, these tiles offer excellent durability, stability, and easy maintenance.

Suitable for both floors and walls, the 90×120 series is an ideal solution for contemporary residential and commercial spaces seeking a stylish, spacious, and long lasting design.

BONERA

90X120|Effect|5 Faces

Gray

Black

A modern interior scene featuring a chair and a table against a dark marble wall. The chair, named BONERA, has a light-colored, woven seat and a black metal frame. It is positioned in the lower left of the frame. To its right, a portion of a round table with a light-colored, possibly stone or wood, top is visible. The background is a wall of large, dark tiles with prominent, light-colored veins, creating a dramatic, high-contrast environment. The floor is also covered in similar dark tiles.
